

Amendments to the Drawings

Please substitute original Figure 20 with the attached replacement drawing. No new subject matter is added by this replacement drawing, which corrects a typographical error, i.e. the box that reads "Reposition subdural and/or DBS electrodes" identified as "2044" at the top of Figure 20 is corrected to be identified as "2004." Support for this amendment can be found at paragraph [103] as originally filed.
